## Assembly

*All seams ¼". Press seams in direction of arrows unless otherwise instructed. Assembly instructions are the same for all three quilts.*

1. This quilt is designed to be assembled in 5 horizontal rows. Each row contains three 12½" x 16½" rectangles and ten 8½" squares. Within each row, you can either arrange the rectangles and squares as shown in the sample quilts, or arrange them however suits you best. (A design wall is very helpful for this process.) The illustration below shows one possible horizontal row arrangement. Also see the Quilt Assembly Diagram. Once arranged, sew the pieces in each row together. (Sew squares together first, then sew square-units to rectangles.) Press seams toward rectangles and for opposing seams.

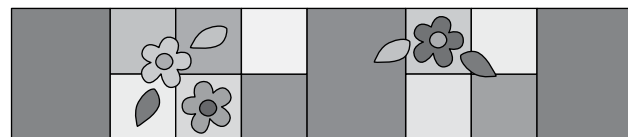

(Sample row.)

Make 5 horizontal rows, each using 3 rectangles and 10 squares.

2. Arrange the 5 rows on a design wall or other flat surface, and decide where you want to appliqué the flowers and

leaves. In the sample quilts, some of the appliqué pieces cross the seam lines of the rows. Any pieces like this will need to be appliquéed in place *after* the rows are sewn together. But, for any pieces that are completely contained within a row, it's easiest to appliqué them in place *before* the rows are sewn together, as you will be working with a smaller portion of the quilt top. Using your favorite appliqué technique, first appliqué the flower centers to the flowers, then appliqué the completed flowers – and the leaves – in place.

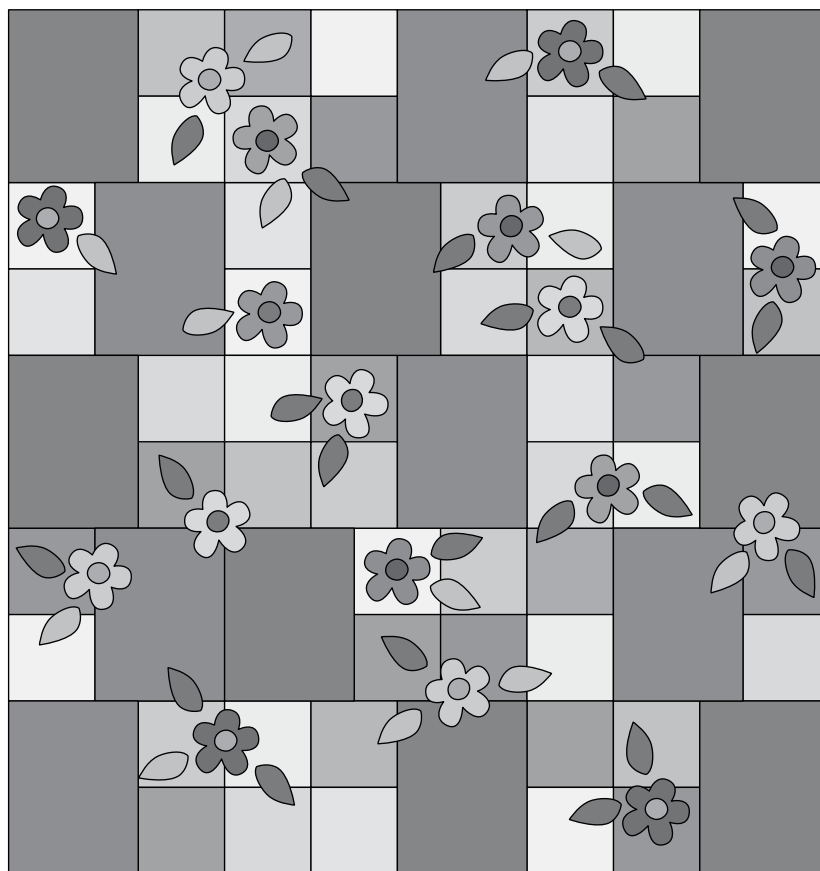

Appliqué pieces to horizontal rows (flowers or leaves that cross seam lines between rows should be saved until Step 3.)

3. Sew the 5 rows together as shown in the Quilt Assembly Diagram. Press seams in one direction. Appliqué the remaining pieces in place.

## Finishing

Layer quilt top, batting, and backing. Quilt as desired. Bind. Don't forget to sign and date your finished quilt.
